

**AFFORDABLE WITH SUPERB
ACCURACY.**

AURUM 5

Accuracy

**$\pm 0.03\%$
(9999 Gold)**

Upgraded 2025

**FP2.0
features**

Highlight

Classic

Features

- Analysis elements: K(No.19)~U(No.92)
- Max up to 30 elements could be analyzed at the same time
- Analysis range: 0.010%~99.99%
- Accuracy: $\pm 0.03\%$ (9999 gold) / $\pm 0.1\%$ (K Gold)
- Detector: USA AMETEK customized X55 Si-PIN detector
- X-ray tube Window material: glass window, Emit angle: 45°
- Supporting multi-point continuous test, high test efficiency
- Support connect scale solution to get the value of weight
- **Gold Plating alert helps in fraud detection**
- Rhenium and tungsten detection warning
- Support automatic calculate average value and RSD of multi-results

Dimensions WDH: 450x378x422 (in mm) / 39kgs

Application

Metal
